

“The 5-Phase Nitro Formula For Spitting Out Cash Cranking Niche Websites”

On-Demand-Training Follow-Along Cheat Sheet

Listen Free at www.NitroIncubator.com/webcast/

Please print this cheat sheet so you can follow along.

- **Making money online is simple and is easily summed up as:**

Picking **a profitable niche,**
creating **a site around that niche,**
getting **traffic,** and then **making money**
from that **traffic.**

- **What are the main 5 reasons people are not successful online?**

1. **Overwhelmed with options.** (Too much information, too many directions to head)
2. **No step by step system to use** (No idea where to start or in what order to do things for the best results)
3. **They pick a bad niche.** (This dooms you from the start)
4. **Things get too technical to handle** (creating and hosting a website, autoresponders, list management services, etc)

- **However the #1 people fail online is:**

They are on their own. You need somebody to work with, a person to turn to when you have questions or run into problems.

- **What are the two things stopping 98% of the people trying to market online?**

1. **Successfully picking a good niche.**
2. **Getting or creating content for a site.**

- **What are the 5 things to look for when choosing the right niche market?**

1. **Demand**
2. **Competition** (you want some but not an overwhelming amount)
3. **Quality of competition** (and hopefully lack of it. Don't compete against master Internet Marketers)
4. **Money Possibilities**
5. **Content Possibilities**

- **What are 6 free ways to easily and quickly have content created for you? Including links to the actual resources you can use for free.**

1. **Article Banks / Directories** (GoArticles.com, ArticleCity.com)
2. **Public domain** (www.gutenberg.org)
3. **Get someone else to do it for you** (Paid- elance.com, Free- student intern from college or university)
4. **Get your readers to do it for you** (Have them submit articles or stories for you to publish, or answer their questions in an article format to easily create content)
5. **Get famous writers to contribute to your site** (Contact them or their publishers for articles to reprint, or book excerpts to publish on your site)
6. **Dynamic Content** (Use live feeds from Ebay.com or Amazon.com –ties into their affiliate programs too!)

- **What is the #1 best way to get highly targeted traffic for free?**

Search Engines

- **What are 3 more easy, free ways to get traffic?**

1. **Article Banks / Directories** (Post your own articles)

2. **Reciprocal Links**

3. **Niche directories**

- **What is NOT the best way to go about making online that everybody is trying to teach as the best way?**

Don't start off by creating a product or service. Use affiliate programs first and then expand into your products like e-books once you know what your readers are interested in.

- **What is the easiest and very lucrative way to quickly make money from your site?**

Google AdSense

- **Where is the best place to put your google adsense ads to maximize the revenue you receive?**

In the top left corner of the page

- **How can you automatically earn multiple times from every visitor to your website?**

Collect Email Addresses (Here is where most people fail again. By getting your visitors email addresses, you can earn multiple times from the same visitor, and it can even be totally automated. With traffic, either a visitor earns you money or not, then they are gone. With an email addresses to keep in contact with your visitor, you have a chance to really build a relationship with them to keep them coming back)

- **Where do you go from here, now that you have a site getting traffic and making money? How to use the "*BAP - Nitro Business Doubler Formula*"?**

BAP – Business Doubler. Bi-weekly Action Plan. You need to keep your efforts focused even after you have a profitable foundation. Pick one very specific thing on your site to work on, and for the next two weeks focus on improving nothing else. Pick something new every two weeks, but stay super focused

90 Days From Now 150 People Will Be Making Money From Their Niche Website... Will You Be One Of Them?

Picture yourself going out and confidently using our system to produce website after website that cranks out cash. How many cash producing websites would be enough for you? What kind of life are you leading now that you are armed with a predictable system like that? And what are you doing with the cash?

<http://www.NitroIncubator.com>

Register for the Nitro Incubator Program today and, if you qualify and are accepted, you will receive the following:

- **Our complete step-by-step, 5-Phase System.** Each phase is broken down into small bite size steps to take and then moves you onto the next step in that phase. You will know what to do, exactly how to do it and only at the time you need to do that step, thus avoiding overwhelm and allowing you to get results fast.
- **Mastermind with the other Incubator members via the Incubator conference calls and online community.** Learn from those who are in advanced stages while networking and meeting people who are the same level as you. You are no longer alone, instead you are surrounded with your own support system of like minded, positive people just like you.

- **Receive special Incubator Only benefits.** There are secret tactics and techniques we have developed and perfected that we only provide to the people in the Incubator program. Special training, links to your sites, getting you indexed by the search engines within days (even hours), free traffic and exposure from our secret high traffic niche sites and a whole lot more. These special benefits (all of them free to you) will be worth \$1000's to you over the coming months.
- **Have your own Incubator Mentor to turn to every step of the way.** Whenever you have questions or run into problems they are just an email or phone call away. They have already successfully created the Incubator process (have a successful website), are highly motivated to help other people like you succeed and are trained by us to be expert coaches to give you the encouragement (and kick in the rears) when you need them most.
- **Best of all... we don't profit until you profit.** That means we are highly motivated to see you become successful. We are the first, and only people, to put our money where our mouth is and only start to profit once you are profiting as well.
- **And once you have done it once... you can do it over and over again.** When you take advantage of everything the Incubator program offers you -- creating a niche website, getting traffic and making money -- you will know (and have done) everything you need to do this over and over again as many times as you want on your own. Many successful Incubator members have went on to create one or more new sites on there own and many times these new sites are more successful then the first one they created in the Incubator program.

To submit your application and be considered for one of the highly coveted 150 Incubator positions, go right now to:

<http://www.NitroIncubator.com>

Don't delay though, we can only accept a limited number of new people in the Incubator program. The sooner you get your application in, the higher you will be in the Application List and the better your chance of being accepted. Don't kick yourself by putting this off only to find out you were too late.
